Description

The device protects your Television, MNet decoder, Satellite decoder and VCR against lightning and surges without additional earthing. The units provide surge and transients suppression resulting form mains borne noise and induced lightning. It incorporates a fast overload device which will be activated in extreme conditions. Functional indication lamps display the protection status of the unit. A unique built-in thermal protection devices eliminates fire hazards.

The Power Tripconnect® prevents damage from power surges and dips (brownouts) caused by power shutdowns and over- and under-voltages from unstable power. The duration of these conditions is normally longer and can be especially damaging to air conditioners, electric motors, etc., running under load, and expensive electronic equipment.

The Power Tripconnect® disconnects the power altogether when these conditions occur and remains off for 10 seconds giving the power feed time to stabilize.

The Power Tripconnect® is easy to use and LED indicators are provided.

Features

- Plug-and-Play concept
- High surge capability
- Fire hazard protection
- Protection indication lamps
- Line filtration
- Thermal disconnect protection
- Effective filter system
- Integral circuit breaker
- Reduces inrush current
- Built-in Delay
