R1M speakerphone for Skype

The R1M is a speakerphone from Accutone. Designed to work within the office environment. It has a superb echo-cancellation ability. Compatible with Microsoft Lync and other UC applications. Aside from USB connection, the R1M comes with a rechargeable battery, which supports 3.5mm connectivity for conferencing via smartphone or tablet. The R1M uses touch-sensor digital controls for volume adjustments, mute and Lync hook-switch.
